### Experience

#### Netflix / Staff Product Designer / 2019 - Present

Lead design for our Consumer Design System across Android, iOS, TV and Web. Focused on the system's creative strategy and architecture, improving workflow and engagement models and identifying strategic innovation opportunities.

Co-created infrastructure which automated and stabilized the delivery of design tokens and assets to designers and engineers across platforms. Created a documentation platform to educate designers on component usage across business areas. Hired and managed several designers (mid to principal) who researched collaboration workflows, supported migration of design tools, designed and documented components, delivered an evolved icon system and evangelized the system.

#### Spotify / Senior Product Designer / 2016 - 2019

Led the creative strategy to reshape design systems at Spotify, called Encore. Built a centralized design system team, defined the vision, roadmap and operational model. Design System Lead for the Web, focused on advertisers, growth, artists, labels and marketing.

Created, documented and delivered a unified set of guidelines, toolkits, and accessible components for Spotify web products across Consumer, Enterprise and Marketing. Art directed a design team for Spotify Premium seasonal and evergreen campaigns and integrated with our payment product team.

#### Square / Product Designer / 2015 - 2016

Launched a beta for Online Store and built optimizations for search and scan interaction patterns for Square Retail POS.

#### Amplify / Senior Visual Designer / 2013 - 2015

Led design for Amplify Market. Modernized our web and tablet visual direction and created a character animation system.

#### The Barbarian Group / Designer / 2011 - 2013

Worked with clients: GE, Bacardi, The Wall Street Journal, Bloomberg, Samsung, Facebook, Sears and Dos Equis.
